**ADDENDUM NO. ONE**  
**July 30, 2015**

**ITB 15-0632**  
**Hauling Services for Waste Roll-off Containers**  
**for Lake County Landfill and Convenience Centers**

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with the initial bid or proposal response, or by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid or proposal from being considered for award.

This addendum does not change the date for receipt of bids or proposals.

Questions regarding this solicitation are due by 2:00 p.m. on August 5, 2015. The purpose of this addendum is to address questions received to date.

**Question 1:** Who decides how many billing miles a trip consists of? The pricing section only asks for a price per mile. Each location to destination should have a round trip billing mileage attached with it.

**Answer 1:** Bids shall be reviewed based upon the unit prices submitted. Mileage will be determined by map quest using the address of the facility the load originates from to the address of the disposal site. Addresses of the County facilities and the disposal facilities are included in the ITB document in Section 2/Statement of Work. Attachment One included with this Addendum shows one-way mileage from each County facility to each disposal facility calculated using map quest. If vendors propose other disposal sites, the vendor is responsible for supplying the address of the alternate disposal site and calculating the mileage from each County facility to the alternate site.

**Question 2:** Will the two forty-eight foot (48') walking floor trailers be provided to the hauler by the county at the Lady Lake and Loghouse (Clermont) locations? Or will the hauler have to provide both the tractor and two 48' walking floor trailers?

**Answer 2:** Lake County will supply the forty-eight foot (48') walking floor trailers. The selected vendor(s) will supply the tractor to move and unload the trailers. The tractor used to perform service under resulting contract must be equipped with a hydraulic power take-off system capable of operating the walking floor.

**Question 3:** The pricing section only asks for the unit price per ton at each destination. Each waste material has a different disposal fee. There should be a designation of waste material unit price per ton at the destination.

**Answer 3:** Lake County has or will open an account at all designated disposal sites and will pay the cost of disposal directly to the disposal site. This is a solicitation for hauling services/pricing only and does not include disposal costs.

**Acknowledgement of receipt of Addendum One:**
